RE: Clarification Regarding Football Coaching Positions

Dear McKeesport Area School District Parents/Guardians and Community Members,

The McKeesport Area School District's top priority is the safety of all students, staff and visitors.

The District is aware of rumors circulating throughout the community indicating that the McKeesport Area School Board terminated all football coaches during its regular meeting held on Wednesday, June 10, 2026. This correspondence is being shared to provide accurate information and clarify the actions taken by the Board.

At the June 10 Board Meeting, the School Board did not terminate any football coaches. Rather, the Board voted to table the hiring of football coaches due to personnel-related matters. As these matters involve personnel considerations, the District is unable to disclose additional details.

While the hiring of football coaches has been tabled, all football-related activities will continue throughout the summer as scheduled. The District will make the necessary internal arrangements to ensure that football activities proceed in a normal manner and that student-athletes continue to have access to the opportunities and support they expect.

We appreciate the community's patience and understanding as the District works through this process.

Through collaboration and communication, the McKeesport Area School District remains committed to keeping our parents/guardians and community informed and ensuring a safe, supportive environment for all students.

Sincerely,

Donald L. MacFann
Superintendent
